BREATHING IN FILTH AND GERMS

Of Deadly Diseases at Every Breath, and no Means of Releif Seem to be Available-The Creek Made into a Cess Pool and Receptacle for Offal.

The INTELLIGENCER has several times referred to the noisome condition of Wheeling creek about the Fulton slaughter house and from there on down through the city limits, and it has been chronicled also that that dread disease, scarlet feyer, has broken out in several families. Yesterday several new cases were reported.

The local board of health is composed of M. Friesmuth, chairman, Henry Roth and Dr. Eppart, the doctor acting temporarily in place of Dr. Clark, a de-ceased member. This board appealed to the county board, but was informed by the latter that it had no jurisdiction. The village board holds a different view, as the village line extends only to the creek bank. The chairman yester-day communicated with the state board of health, and expects an answer by

of health, and expects an answer by this morning.
Yesterday Dr. Ashbrook, who has several cases of the fever, and Mr. Friesmuth made a visit of inspection. An INTELLIGENCER reporter saw them after they returned. Mr. Friesmuth said the creek had been used as a convenient way of getting rid of all worthless offal, even manute, cow heads, intestines and blood being thrown into it. In high water these would wash away, but at the present stage the whole mass lies decaying in the stagnant pools,

Dr. Ashbrooke said he considered scarlet fever worse than small pox. The latter can be guarded against by vac-cination; the latter cannot. Then the wholesome fear people have of small new renders them cautious, while they

cination; the latter cannot. Then the wholesome fear people have of small pex renders them cautious, while they do not recognize the greater danger in scarlet fever. Yet when the doctor and the Fulton board called on City Health Officer McCoy yesterday he said there was no authority in the law to quarantine against scarlet fever.

The Fulton board is in earnest in its determination to remedy the evil. It should concern the city health committee, too, for what little water is in the creek comes through these sources of full poison and conveys through the city itself the contamination and corruption, endangering the public health in Wheeling just as much as it does that of Fulton.

BRAKEMAN KILLED.

John McGuire Meets a Horribie Death on the Rail. Yesterday afternoon John McGuire,

of Kirkwood, over the river, who is employed as a brakeman on the Cleveland, Lorain & Wheeling railroad met a most horrible death at Fairpoint, Ohio, a short distance out the line from Bridge short distance out the line from Bridge-port. McGuire was the brakeman on a north bound freight train, which was sidetracked at Fairpoint to allow a south bound passenger train to pass. McGuire was told to set the switch so that the passenger train could pass. He sat the switch, and stopped back as he ihought far enough to avoid being hit. However, he miscalculated the distance, was struck, knocked down and terribly was struck, knocked down and terribly crashed. He was brought in to his home in Kirkwood, but died on the way. He leaves a wife and two children.

Special Dispatch to the Intelligencer.

E. G. Wyble, a well known and prosperous young business man, was found dead in the derrick of Hamilton No. 3 oil well this morning. He had been unwell for several days and went home

on well for several days and went home about 8 o'clock in the evening and retired to his room after taking some medicine.

After he retired he arose while the family was out of the house, and without any one seeing him, left the house. When the family returned a few minutes afterward he could not be found and was not found until this morning, when he was found on the derrick floor, having fallen from the top of the derrick, a distance of about eighty feet. He was twenty years of ago, unmarried, and lived with his parents. He owned a good job printing office and a third interest in a new paper to be started here, the type and press for which are now at the depot, it is thought he wandered off from the house while delirious, either from the effects of medicine or the fever in his head.

THE DUSH MEMBERS

Of the House of Commons Accused of Making a Bluff.

LONDON, August 22 .- It is said that Mr. Morley, chief secretary for Ireland, has succeeded in calming the storm aroused by the Irish members as a result of the veto by the house of lords of the evicted tenants' bill. The angry threats made against the government by the Irish members during the all night session of the house of commons on Monday were heralded as the begin-ning of a bitter revolt upon their part. Thomas Sexton, the anti-Parnellite member for North Kerry, started the ball rolling at that time by asking what action the government would take in view of the house of lords veto. Sir William Vernon Harcourt said that this was the greatest question that can occupy the government's attention, adding, however, that it was inadvisable to make a statement on the subject at

Mr. Sexton then asked if the govern-Mr. Sexton then asked if the government would define its policy in the noxt queen's speech. Again the Liberal leader announced that the government was not prepared to make a statement as to its policy in this respect. On conclusion of the committee of supply, the same evening, a number of Irish members proposed various motions with a view of forcing Sir William Harcourt to make a definite announcement of the view of forcing Sir William Introduct to make a definite announcement of the course the government would pursue on the house of lords' veto. The mo-tions were all defeated, in a house of only sixty members, by majorities of about twenty, and the commons ad-journed at 4 a. m. on Tuesday.

journed at 4 a. m. on Tuesday.

This revolt, it now appears, has been quietly neutralized by Mr. Morley, who had a long, persuasive conference with Mr. Sexton yesterday, which induced an entirely different tone in the house of commons last evening.

The Irish members, it is known, expected the government, by collusion with the Conservatives, to postpone the house of lords veto. But Mr. Morley denied with emphasis that there was any such arrangement, and Mr. Balfour made a similar denial on behalf of the Conservatives.

made a similar denial on behalf of the Conservatives.

The incidents of Monday night were followed with threats from the Irish press. In this connection the Times says: "Few people believe that it was more than a sham fight, done for the purpose of coddling the Irish electors into the belief that the Irish members are not the service tools of the government."

The number of people in attendance

The number of people in attendance at the picnic was greatly increased in the evening, when the scene on the grounds was truly beautiful. Strangers at the picnic deciared that no city can boast of a finer breathing spot than our own Wheeling Park.

The ladies committee, which was a very large one, contributed greatly to the success of the picnic. They had charge of the three out-door dining booths and the quality of the viads set forth could not be excelled. The three booths were named, "Bishop Donahue," "Father McDermott," and "Hiberoian," and each was about equally well patronized. The cake walk in the casino during the evening was a feature that excited lots of amusement. Mayers' band offliciated in the open air concert stand officiated in the open air concert stand and on the casino dancing floor also.
